Niagara College Libraries Student Advisory Team (NCLSAT)

Niagara-on-the-Lake Division

April 11, 2016 1:30-2:30 pm (Meeting #4)

Present:

Library Staff: Jackie P., Sam S.

Students: Matthew B. (SAC), Anton P., Tori D., Keith M.

Agenda

1. Introductions and refreshments:

2. Discussion items:
   a. New observations/comments/concerns
   b. Library Website Redesign Activity Part 2

Minutes

2.a.)

- Noise level not that bad, comparatively.
- More study space is needed, both individual and group spaces are desired. The team was evenly divided in terms of preference for group vs. individual spaces.
- Concern over the lack of scientific literature in Library databases, especially in biology and environmental sciences; many students in
these programs are coming from universities and expect to have the same level of resources available to them here.

- The staff are really nice 😊.
- Printing is still a cumbersome process; more signage outlining the process would be helpful.
- Relaxation Station well received; it would be nice to have Therapy Tails in there.

2.b.)

- Students completed an online card sorting activity; the results will be used to help with the redesign of the ncLibraries website

*Note: student who couldn’t attend meeting asked if a survey could be sent out for future meetings so students could choose a time that works best for them; we will look into this for next term*
